Portfolio

Objective

Web Developer with a solid background in full-stack development. I have hands-on experience in creating robust and scalable web applications. As a team player, I bring effective problem-solving skills to the table, contributing to the success of collaborative projects. Excited to continue growing and applying my skills in the dynamic field of web development.

Experience

Codevskills - FULL STACK BOOTCAMP (MERN)

Jul 2023 - Dec 2023

Project

Cloths store [Live](#) [Git Hub](#)

Project Description:

Develop an **e-commerce** platform utilizing the MERN stack, consisting of **React** for the frontend, **Node.js** and **Express.js** for the backend, and **MongoDB** for the database. **Redux** will be utilized for **state management**. The platform will offer a diverse range of clothing for **men**, **women**, and **kids**, enabling users to browse and purchase items. **Secure authentication** will be implemented using **JWT tokens**. Additionally, an **admin panel** will be created to manage products, **orders**, and user data. The application will be **mobile-responsive** and will leverage **RESTful APIs** for seamless communication between the client and server.

Coffee Shop [Git Hub](#)
